JOIN ME AT LED SPECIFIER SUMMIT

A one day Immersion in LED Lighting Education and Solutions

WHERE I WILL BE PRESENTING:

IP68 LED Lighting: Lighting the Chicago Riverwalk

4:00-5:00 pm | Seminar S14

QUALIFIES FOR:

1.0 AIA LU | HSW; 0.1 IDCEC CEU; 1.0 PDH, LA CES | HSW; 1 NCQLP LEU

ABOUT THE SEMINAR

The newly opened Chicago Riverwalk, viewed from a lighting perspective, is a project located in a flood zone that requires all fixtures to be IP68 rated. In this session, you will hear and see the challenges of designing playful, welcoming and attractive lighting that is governed by stringent city requirements. It is possible to move from the stark, security-style lighting of the past and provide a fun integrated solution that can handle an active flood zone.
